CODE OF ETHICS**

(In Compliance with P.W.C.C.A. Regulations)

1. Each member who contemplates breeding a litter or who allows the use of his stud dog to the same end shall direct his efforts toward producing Corgis of exceptional quality.
2. Only dogs of sound temperament and structure, good health and characteristic type as described in the A.K.C. Official Standard for the Pembroke Welsh Corgi should be used for breeding.
3. Dogs and bitches should not be used for further breeding if they have, in 2 litters, produced offspring with the same serious genetic defect such as: blindness, deafness, lameness or impairment of vital functions which prevent these offspring from living a normal, healthy life without major surgical or significant medical intervention.
4. Bitches to be bred must be in robust health. Eyes and hips should be checked and found to be within normal limits. A bitch is not to be bred prior to 1 year of age or older than 8 years, nor should she produce more than 6 litters in her lifetime. A bitch should not be bred more than 2 out of 3 consecutive heat seasons. Stud service should be offered only to bitches whose owners adhere to the above guidelines.
5. A male should not be used at stud unless his hips and eyes are checked and found to be within normal limits.
6. Members should not consider breeding a litter unless they are prepared to keep the resultant puppies for as long as it takes to suitably place each puppy. Members offering stud service should request the above assurance from the owners of bitches.
